**PARTNERING WITH U.S. POSTAL SERVICE,
CASTLE HAYNE**

This brochure contains information that can make our community a safer place to live.

Dear Resident,

Time is the enemy. As an emergency responder, we know how important it is to locate the emergency as soon as possible. Many people have failed to present identifiable markings on their residence. *There is a big difference between knowing the address and finding the address.*

Improper addressing frustrates emergency responders, but it could be deadly to the resident because of the delays that result. This problem has been recognized for several years by public safety agencies, and many communities have recently passed or started enforcing ordinances that require address numbers of certain types and sizes, but the problem still persists.

We are offering help to combat this confusion with double-sided reflective signs to be mounted to your mailbox post or in a conspicuous location by the street. These signs are laminated with 3M- engineer grade reflective vinyl. They feature 3- inch numbers visible from great distances. The signs have a green background with contrasting white numbers. We can place up to five numbers on each side. Signs are 100% aluminum.

For those of you wanting to also place markers on your home, we are able to obtain House Markers great for mobile home parks and close communities.

Together, we can minimize if not eliminate this chronic addressing problem.

The Castle Hayne Fire Department and the Castle Hayne Postal Service do not want responders to have to waste time searching for the correct response location.

New Hanover County Public Communications Center has installed an enhanced 9-1-1 system allowing responders to locate the street and general location of emergencies to combat most of the confusion associated in determining locations. This has also helped to prevent misdeliveries of mail to your area.

Although proper address marking is the responsibility of every citizen, we know that when you are not found immediately or mail is placed in your box due to poor or no addressing, it is easy to point the blame elsewhere.

Please help us to eliminate that problem in the Castle Hayne Fire District. Sign up for this enhancement program at the Fire Station or Post Office.

We hope to hear from you. For more information please see the example displays at either facility. Simply fill out the application in this newsletter and drop off at the Post Office located on Holly Shelter Rd., or at the fire station located at the junction of Castle Hayne Rd. and North College Rd.

In summary, this is an excellent program that we are excited to make available to you, the residents. The fire department will even assist those in need with attachment of the signs to your mailbox post.

Please take the time to help us help you.
